## HMC new website online

**HMC's new website is online as of today.**

In the last newsletter HMC announced an all new website. We all had to wait a little bit longer then we've expected, nevertheless we are very proud to inform you that HMC.nl is "up-and-running".

The new website has an all new interface and a clarifying layout between HMC's Marine Services (MS) and Marine Business Applications (MBA). You can also find new additional information about our company, news and agency's.

## HMC goes to college..

**In cooperation with Berechja college of education HMC created the educational course 'Competence of Marine Warranty Surveyors'.**

Because of the importance of Warranty surveyors the Marine Warranty Surveyors course has been set up. The express aim of the course is using the principles of classification and certification to help improve and codify competence at all levels within the maritime industry.

It has been claimed around the world that the industrie needs a high-quality standard of competence for ship warranty surveyors. The standard can be applied in the following ways. As a guide to the competence required, for those who already work or wish to work as MWS, a guide to train providers or the assessment of MWS. This is done by HMC and provides an independent and transparent mechanism for certification. The course
