February 2023

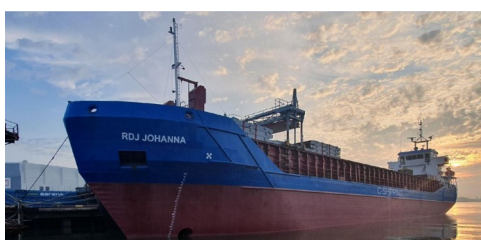

FOUR NEW CONTRACTS FOR CPC LOADING INSTRUMENT PROJECTS AWARDED IN FEBRUARY FOR (MAASTROOM, RIJNSTROOM ,JOHANNA AND KAILEEN).

February has been a great month closing 4 CPC projects including class approval for 3.

This month HMC BV has been awarded for CPC Loading Instrument for the following vessels:

- RDJ MAASTROOM.
- RDJ RIJNSTROOM.
- RDJ JOHANNA.
- KAILEEN.

We are proud that Rederij de Jong and Hansa Ship Management OÜ have chosen HMC BV for the CPC update and class approval for their vessels.

**WE WISH THE FOUR VESSELS
A BON VOYAGE AND LOTS OF
LUCK**

MARINE SERVICES - GREAT ENGINEERING SUPPORT FOR MWS PROVIDED TO SARENS FOR WET TOW OPERATION OF THE GIANT 5.

This month HMC assisted Sarens providing consultancy and calculations for a wet tow operation of the GIANT5.

HMC performed bollard pull calculations, weather routing, towing arrangements, and tow wire condition analysis of the transport manual for a robust and detailed MWS check.

We are delighted to assist such prestigious clients, performing high-level calculations with great passion and flexibility. Safety is the main goal of our engineering and MWS team for all these complex operations.

MARINE EDUCATION (MARINE WARRANTY SURVEY (MWS) COURSE FOR SHELL NIGERIA & THE ANCHOR HANDLING (AHTS) COURSE MARCH FOR M.I.C.E GLOBAL IN SINGAPORE.

Due to the big demand for HMC BV Marine Warranty Survey course, we are happy to announce having a second course on the 13th of March including the upcoming new IMO rules and regulation governing heavy-lift and other maritime operations. Also the AHTS online course on the 27th of March. Be the first to register!

Why you should attend MWS Course

The course enables engineers to gain a thorough understanding of factors influencing their structures during ocean transport

- The course allows the participant to be introduced to the world of marine warranty surveyors.
- Participants learn about different modes of ocean transport and learn the pros and cons of all types of operations.
- Participants learn the ins and outs of the life of a surveyor, learn to navigate through the demands of ships' captains, project managers, operational managers and their contractor.
