

**Marine Warranty Survey (MWS)**  
**2023**  
**Client Reference**

Capt. Joseph udoh,

“ I attended Marine Warranty Survey (MWS) course at HMC BV Centre, Almere -Stad, The Netherlands. I really enjoyed the course overall: from the initial communication with HMC to the final delivery. A.J.BOS makes me to understand the practical relevance of the course in the Maritime and Energy sector. He was an excellent instructor and Director, super knowledgeable: with good answers to questions and worldwide overview.

Course Materials were in abundance for easy appreciation and comprehension. External resource speakers were brought in to speak on the latest developments, laws and ongoing regulations: which further enhanced my understanding of the field.

Overall, the course met my expectation for the quality of delivery of MWS and was useful for my progress and interest in this field of study. It was incredibly helpful and has deepened my shipping/Offshore Oil & Gas knowledge.

Hence, I would highly recommend Marine Warranty Survey Course at HMC BV to others.
